**Re: March & August 2011 Surgeries w/Dr Harold Bass MD.**

To whom it may concern,

I visited Strax Rejuvenation in January 2011 under recommendation from a co-worker to see Dr Bass for the purpose of having a "Tummy Tuck" to remove excess skin due to a 185lb weight loss attributed to Gastric Bypass surgery I had in December 2007. I met Dr Bass and felt very comfortable with his experience as I had researched his credentials prior to my visit. I experienced some complications after surgery and Dr Bass was available talking with my family, personal doctor and friends and assisted in every way possible. Dr Bass completed a revision surgery to my tummy tuck and I could not be happier with the results. Dr Bass has a great bedside manner and truly cares for his patients. His experience and caring demeanor make Dr Bass the surgeon of choice for me.

Dr Bass is a true asset to Strax and he and his staff should be recognized for the fine job they do. Please feel free to communicate my sincere appreciation to Dr Bass and I would love to express my appreciation and admiration for Dr Bass to those in your organization.

Sincerely,

  
Scott Furr
